

## Adjustable Round Lens Holders

ARLH

Holders for fixing round lenses of any diameter size.

Appropriate for use in applications where there are no lens holders of compatible diameter or the lens diameter is not decided.

- ▶ Space saving sliding clamp allows optics to be placed close to each other.
- ▶ The bottom surface of the holder has a V-grooved section, which can fix cylindrical components other than lenses.
- ▶ Round lenses are fixed securely with the slit on the bottom surface and the lens clamps.

## Guide

- ▶ Caliper variable lens holders (CVLH) that make the optical axis height of a lens consistent are also available when fixing lenses. [Reference](#) D028
- ▶ Post length can be changed. If the length of post is specified at the time of purchase, this product will be delivered after replacing posts.
- ▶ Post replacement is gratis, but contact our International Sales Division because there may be extra charges due to differences in length.

## Attention

- ▶ Make sure to tighten the slide clamps before tightening the lens clamp.
- ▶ A variety of Post Holders are available to adjust the height of the mounted lens. [Reference](#) F038 – F039
