

ITC-HG-X

RJ45 SUPER FLEXIBLE GIGABIT ETHERNET CABLE

The RJ45 Super Flexible Gigabit Ethernet Cable can be used for data transmission of RJ45 Gigabit Ethernet interface cameras, and is available in a variety of lengths.

Applicable Camera:

- RJ45 Gigabit Ethernet Interface Area Scan Camera
- RJ45 Gigabit Ethernet Interface Line Scan Camera

Order Models:

- 3m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-3
- 5m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-5
- 7m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-7
- 10m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-10
- 15m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-15
- 30m RJ45 Super Flexible Gigabit Ethernet Cable: ITC-HG-30

Dimension:

Specification

Specifications	Model	ITC-HG-X
		RJ45 Super Flexible Gigabit Ethernet Cable
Physical specification		
End A connector		RJ45 (with locking stud)
End B connector		RJ45
Cable diameter		6.2 mm
Length		3/5/7/10/15/30 m
Cable mechanical		4P*26#
Jacket		PVC
Cable color		Black
Min. bending radius		Static scenes: 31mm Tank chain: 62mm
Applicable scenario		Static scenes/tank chain
Max. U-type bending cycles		10 million times
Electrical specification		
Max. voltage		30 VDC
Additional information		
Working temperature		Static scenes: -20°C~ 80°C Tank chain: -5°C~ 60°C
Certification		RoHS
Packaging		Individual package

Read the user manual for the camera including the precautions before connecting the cable to the camera.
